Issued By Change Financial Payment Services Limited

Start date:	1 April 2024	
Version:	2.0	
Review period:	Every 12 months from the start date of this Target Market	
	Determination	
Next review due:	1 April 2026	
Issuer of the Product:	Change Payment Services Pty Ltd (ABN 92 651 106 955 & AFSL 534901)	
Distributor of the Product:	HEALTHNOW (AUS) PTY LTD (ABN 41 672 267 140)	

What is a Target Market Determination?

A Target Market Determination (TMD) sets out who a financial product is appropriate for (target market), and any conditions around how the product can be distributed to consumers. It also describes the events or circumstances where Change may need to review the Target Market Determination.

A Target Market Determinations helps ensure that financial products are being provided to the type of people for which they were designed for. In another word, it helps consumers understand if a product is a good fit for their needs.

The HealthNow Mastercard Prepaid Card is a financial product for the purposes of the Design and Distribution Obligations outlined in the Corporation Act 2001 (Cth). Change Payment Services Pty Ltd (CFPS) is therefore obligated to create Target Market Determinations for this product. The table below demonstrates how CFPS has assessed the design, availability, review and improvement of this product.

Product		
Mastercard® Prepaid Card	This Target Market Determination applies to the HealthNow Mastercard Prepaid Card	
Target Market		
Consumers Description	Class of Consumers The product is targeted at consumers for whom their employers offer the HealthNow employee benefits solution to eligible employees. The	

eligible employees need a convenient preloaded, Prepaid Card solution to access the benefits. Objectives Eligible employees need • easy access to employers contributed funds to pay for employer-approved expenses • a convenient Prepaid Card solution Needs Eligible employees seek a secure method to access employer contributed funds available on their digital wallet to pay for approved expenses where Mastercard is accepted. Financial Situation The Financial Situation of the Target Market are consumers who, at the time of application, are employees of a Company that have an eligible account with the distributor/HealthNow and have access to funds in their account on behalf of that Company. Product Description Features of the product The product is a Prepaid card facility linked to the HealthNow digital wallet. It allows individuals/employees to access funds allocated by their employers specifically for employer-approved expenses. The product comes with the following key attributes: • Prepaid payment facility that can be preloaded with funds by transferring funds onto the Prepaid Card from the distributor /HealthNow, based on limits as instructed by the employer. The distributor arranges funding from the employer respectively • Can be used to make payments for expenses at approved merchant types (restricted by Merchant Category Code) anywhere within Australia where Mastercard is accepted • Can be used to make payments for expenses at approved merchant types (without a PIN) • Can be used to make purchases online or via telephone • Can not be used to withdraw cash from ATMs or from EFTPOS Appropriateness Statement This explains how the product aligns with the likely objectives, financial situation and needs of the target market The issuer/CFPS has evaluated and determined that the product, along with its key features, aligns well with the needs, financial situations and the objectives of the intended target market. Distribution conditions The conditions and restrictions on the distribution of the produ
